FOREWORD

FACT BOOK 1980-81 is designed to provide timely, accurate and comparative data about the State University System of Florida. It is intended for use by individuals interested in higher education in Florida. Our primary goal is to present summary information in a form which is easy to understand. Thus, in addition to tabular displays, charts, graphs and a glossary of terms and abbreviations are included.

Data in the FACT BOOK were gathered from a variety of sources. The primary source documents were the State University System Data Tapes, which are provided regularly by the Universities, the Higher Education General Information Survey Reports (HEGIS), annual financial statements, operating budgets, and reports required by the United States Office for Civil Rights. Please note that in the fall of 1980 the State University System converted from a quarter system to a semester system. Although most data presented in the FACT BOOK cover either the fall quarter 1980, the 80-81 academic year (September 80 to June 81), or the 80-81 fiscal year (July 80 to June 81), there are a few tables which refer to semester data.

Although the data presented in the FACT BOOK have been carefully prepared and thoroughly checked by the Board of Regents Staff and the Data Administrators at each University, there is still the possibility of error. Therefore, if you intend to excerpt portions of this document for publication elsewhere or use its data in major policy development or analysis, we recommend you contact our staff to ensure that you receive any post-publication changes. In order to help this communication, we have placed the initials of the Board of Regents Office responsible for the data presented in the lower left corner of each table or figure. The initials are expanded in the glossary. In addition, a directory of Board of Regents Staff by responsibility has been included.

THE STATE UNIVERSITY SYSTEM OF FLORIDA

The State University System (SUS) was established formally in 1905 when the legislature passed the Buckman Act which consolidated the various post high school institutions into three under a Board of Control. After consolidation, the System consisted of the University of Florida, Florida A&M University, and Florida State University. As the desire for an education continued to grow throughout the state and students demanded advanced instruction within commuting distance of their home, the urban areas started to compete for degree-granting institutions. By 1964, University of South Florida in Tampa was under operation, Florida Atlantic University in Boca Raton was on the drawing board, and two more institutions, one in Pensacola and one in Orlando, were authorized. In order to enhance coordination of this growing system, the Florida Legislature established the Board of Regents as the single governing board of the state supported universities.

As originally established in 1965, the Board of Regents consisted of nine members; however, today, that number has increased to thirteen. The membership now includes eleven representatives from various geographical areas of the state, who are appointed by the Governor for six-year terms, a student Regent appointed for a one-year term, and the Commissioner of Education. Chief administrative officer of the Board of Regents is the Chancellor. The Board and Chancellor are supported by a central office which is structured according to major functional areas: Office of the Chancellor which includes budgeting; Academic Programs, which includes program review and academic planning; and Administration and Support which includes management information systems, business and financial operations, construction administration, and personnel management.

The Board of Regents is involved primarily in policy-making; therefore, its responsibilities include adoption of system-wide rules and policies, planning for the future needs of the SUS, evaluation and coordination of program development, to name a few. Responsibility for the operation of each institution is delegated to the universities. In the state organizational structure, the Board of Regents is placed under the State Board of Education as "the Division of Universities." Thus, the State Board of Education is charged with the responsibility of approving or disapproving all rules and regulations adopted by the Regents and adopting and transmitting to the Governor the SUS Legislative Budget Request.

In 1980, the Governor created by executive order the Post-secondary Education Planning Commission which also will report to the State Board of Education. This commission was established to coordinate higher education in Florida, and thereby, through the coordinated effort, achieve quality improvement.

Today the University System consists of nine universities which are placed strategically throughout the state: in Gainesville, the University of Florida; in Tallahassee, Florida A&M University and Florida State University; in Tampa, the University of South Florida; in Boca Raton, Florida Atlantic University; in Pensacola, the University of West Florida; in Orlando, the University of Central Florida; in Jacksonville, the University of North Florida; in Miami, Florida International University. There are twelve off-campus centers located throughout the state. Also, the University of Florida Institute of Food and Agricultural Science (IFAS) administers seven agricultural research and education centers in addition to 69 county cooperative extension programs. The University of Florida and the University of South Florida have medical schools, the former providing internship and residency programs on campus at Shands Teaching Hospital.

This year has been marked by many significant events, the highlight of which was the selection of a new chancellor. On March 1, 1981, Dr. Barbara W. Newell became the forth Chancellor of the State University System. Also, the year brought an appropriation of $22.9 million for the Quality Improvement Program enabling the universities to continue targeting specific programs of excellence. Under the Emminent Scholars Act, four endowed chairs were created through the raising of $600,000 in private funds matched by $400,000 of state funds: FAU, College of Engineering; FSU, Theatre School; UCF, American Private Enterprise; and USF, Banking and Finance. Ground breaking ceremonies heralded the new regional campus of USF in Fort Myers. Campus housing, admission standards, and enrollment limitations were but a few of the issues confronted during the year. Lastly, due to the anticipated reduction in state and federal funding, especially in the area of student financial aid, the State University System was determined to be approaching a time for reflection; a time for "pause" in order to set the direction for the future. The Master Plan, begun this year, is that look into the future.

[4]Also includes Shands Teaching Hospital, Veterinary Medicine, and Allied Clinics at UF. In 1980-81 Shands Teaching Hospital became a private non-profit hospital and is no longer associated with the SUS. General Revenue monies are used to contract different programs for services previously rendered by Shands when it was part of the SUS.

[5]Salary increases and other separate appropriations are included.

[6]For the year 1979-80 and 1980-81 there were numerous additional appropriations and transfers made after the Appropriations Bill was approved by the Governor. To more accurately show appropriations for these two years, figures were taken from the Governor's Appropriation Ledgers dated June 30, 1980 and August 31, 1980 respectively. Some of the 1980-81 figures have been revised to reflect changes made after 1979-80 Fact Book was printed.

[7]A number of Administered Funds programs have been transferred to the Department of Education.

[8]Salary increases for Faculty and A&P are included.

NOTE: Auxiliary enterprises are exluded from this table. SOURCE: Appropriation Bills. OB

[1]In the first year of the quality improvement plans, specific programs were identified by the institutions and approved by the Board of Regents to receive the supplemental funding to become "Centers of Excellence." In subsequent years, the title was changed by the Legislature and the universities continued to provide additional funds to programs from new quality improvement dollars.

[2]Excludes price level and salary increases on the $2 million provided in 1978-79.

[3]Excludes annualization, price level and salary increases on all funds previously provided for quality improvement.

[4]Excludes annualization, price level and salary increases on supplemental funds provided in all previous years.

[5]Excludes annualization, price level and salary increases on funds provided in previous years.

[6]Includes funds to be dispersed to universities for programs identified by the Legislature and currently held in Reserve.
